The Agenda with Steve Paikin is a popular daily television program on TVO. Featuring 3-5 leading political, cultural and academic figures, each show provides in depth analysis of important social and political issues affecting the lives of Ontarians.

When the production required a fresh new look, set designer Kathleen Climie and her assistant Zana Ancerl turned to Tayco and Boss Design. Having worked with Tayco in the past, Zana knew that Tayco would be the perfect solution to modernize the look and feel of the set.

The set was outfitted with 3 Kruze chairs upholstered in luxurious fabric with a sophisticated Black American Walnut veneer back, which coordinated perfectly with the theme and overall aesthetic of the set.
