

PROJECT SUMMARY

CLIENT

Wardrop Engineering
Winnipeg, MB

DESIGN FIRM

Number Ten Architects

PRODUCT

Cosmopolitan Systems
Metropolis Collaborate
Lily Mesh task chairs
Mars guest chairs

Wardrop Engineering

In 2010 Wardrop, one of Canada's top 100 employers, looked to update and refresh its office environment. The design firm Number Ten Architects turned to Tayco as a supplier they knew they could partner with and trust.

Having successfully worked with Wardrop before, Tayco built on this confidence by providing a long lasting solution. Utilizing the Cosmopolitan and Metropolis Collaborate systems, Tayco provided Wardrop with a fresh new environment, custom fabrics to match with their brand, custom paint colours to differentiate departments, and a custom privacy screen that contrasted beautifully with the white Cosmopolitan top trim. The design was completed with the highly passive ergonomic seating solution, Lily Mesh task chair and Mars guest seating by Boss Design.

Tayco's flexibility and talent to create custom solutions, was demonstrated through the mock-up phase; impressing senior management and winning Tayco the project.
