Industrial Alliance

Founded in 1892, Industrial Alliance Insurance and Financial Services Inc. is the fourth largest life and health insurance company in Canada, offering a wide range of insurance and other financial services. When Industrial Alliance designed to their new facility in Vaughan, they desired a light and airy, ergonomic open plan, with low panelled workstations. They turned to Tayco, recommended for their quality, price, and customer service, to address their office furniture needs. Cosmopolitan and Lily Mesh task chairs created the open plan throughout the space, while private and executive offices were furnished with Metropolis casegoods, Moneypenny task chairs and Mars guest seating. The center conference room featured a large Metropolis table surrounded by leather Delphi seating.

The project goal to have everything in place and ready for staff to move in by a critical date. During installation however, a major challenge arose while trying to fit the oversized boardroom table into the elevator. Tayco resolved the issue overnight by making a new table top that assembled in three pieces. In the end, budgets were met, furniture was delivered with no deficiencies and installation was completed ahead of schedule leaving the site clean and uncluttered, resulting in a very satisfied and happy client.
