## OACAS

Since 1912, OACAS has represented Children's Aid Societies in Ontario and provided service in the areas of government relations, communications, information management, education and training to advocate for the protection and well-being of children.

With the expansion of the existing OACAS office, it was imperative to meet the design team's criteria to fit within a 100+ year old heritage building renovation. The selected manufacturer would need to respond to many challenges that a heritage building has, such as unlevel floors, oddly placed columns, HVAC & electrical locations, etc. Tayco's ability for customization of sizes and configuration was a perfect fit.

Tayco was chosen — based on matching the spec criteria, price, and service — as the single source for the entire project, from private offices, workstations, seating, training rooms, boardroom tables, to lounge furniture. Single sourcing allowed for an overall easy transaction and P.O. process, and Tayco's wide selection of finishes permitted a consistent aesthetic across the whole project.
