CLIENT

York Regional Police
Aurora, ON

DESIGN FIRM

Bennett Design

PRODUCT

Cosmopolitan Systems
Metropolis Casegoods
Metropolis Collaborate
One-Touch Training Tables

SIZE

450+ workstations

York Regional Police

When the York Regional Police relocated their headquarters to a new 237,000 square foot LEED Silver building in Aurora, they required a locally sourced and environmentally conscious manufacturer to supply their office furnishings. YRP wanted a true partner in every sense, with the ability to be flexible and offer long term office solutions, while being open to collaborating with other manufacturers.

Tayco teamed up with Office Specialty and Keilhauer to seamlessly deliver a design conscious, energy efficient and flexible solution. Three Tayco product lines were integrated along side the other manufacturer's products to provide a clean and functional solution. Communication between the three manufacturers was key to the project's success, so the combined solution was tested at every step of the design and delivery phases. Implemented and managed by York Regional Police, Bennett Design and The Workspace Group, this large community-driven project is a true Canadian success story.
