

PROJECT SUMMARY

CLIENT

Worley Parson
Sarnia Lambton Research Park
Sarnia, ON

DESIGN FIRM

Innerspace

PRODUCT

Cosmopolitan systems

SIZE

278 stations

Worley Parson

The Research Park is a self-sustaining innovation centre, which focuses on facilitating the creation, integration and application of innovative solutions for the region's constituents. With the lack of space and the growing desire to expand, the Research Park was seeking more private office space while bringing more natural light into the overall space and maintaining a small footprint. The space transitioned beautifully with 278 Cosmopolitan workstations featuring both 69" panel heights, offering visual and acoustic privacy, as well as low panel heights and glazed elements offering a modern, light aesthetic.
