For immediate release: Tayco receives ADEX Gold Award for Up post and beam system.

TORONTO, April 16, 2008 Tayco Panelink Ltd announces the receipt of a Gold Award for Design Excellence (ADEX) for its Up post and beam system.

Initially previewed at NeoCon 2006, where it won a Best of NeoCon award in the Alternative Office category, Up is an all-in-one design solution that creates a combination of work environments and product solutions for any direction.

“Up represents a giant leap forward for Tayco,” says Dakota Kasdorf, Tayco’s head of design. “It has been well received by the A&D community and end users love what it does for their productivity and corporate image. This is just the beginning – expect more innovative office solutions from Tayco in the future.”

Recently, the new Tayco brand has been recognized with an Award of Distinction in a competition sponsored by ReBrand, the global source for case studies and programs on effective brand transformation.
