Panelink | Terms and Conditions

PRICES

Prices listed herein are for the Panelink product line. Prices are subject to change without notice. Not included in the list prices are special packaging, freight, unloading, unpacking and installation. Possession of this price list does not constitute an offer to sell. Only orders received from authorized Tayco dealers will be processed.

PAYMENT

Terms of payment are net 30 days from date of invoice, upon credit approval. All payments should be remitted to:

400 Norris Glen Road, Toronto, Ontario, Canada M9C 1H5

ORDER PLACEMENT AND CONFIRMATION

Tayco requires that all orders be in writing and accompanied by an Order Cover Sheet to avoid errors. When placing orders, please refer to products by their product code and Tayco quotation number, if applicable. Specify all applicable finishes and clearly indicate the total net value of the order on the Purchase Order. Also note the "ship to" address if it is different from the "bill to" address.

All orders should be faxed or emailed to: **(416) 252-4467, purchaseorders@tayco.com**

ORDER ACKNOWLEDGEMENT

Upon receiving a Purchase Order, Tayco will fax an Order Acknowledgement indicating the shipping schedule and a description of the goods ordered. It is the responsibility of the Purchaser to verify the Order Acknowledgement for accuracy.

ORDER CHANGES

All changes to a Purchase Order must be made in writing and are subject to approval by Tayco. Please note: changes may affect the lead-time and may be subject to additional charges. Once production has begun, no changes will be accepted.

ORDER CANCELLATION

All cancellations must be made in writing and are subject to approval by Tayco. Orders in production will incur a minimum charge of 50% (of net) for cancellation. Once production has begun, cancellations will not be accepted.

SPECIFICATIONS

Detailed specifications are available upon request. Tayco reserves the right to make changes in materials, dimensions, style or specifications if the changes will improve an item's quality or appearance.

STORAGE

In the event that the Purchaser requests postponement of delivery beyond the acknowledged shipping date (after the goods have become a "work in progress", or at a time when Tayco is about to make shipment), the Purchaser must exercise one of two options:

> Immediately transfer the goods to a storage facility of the Purchaser's choice at the risk and expense of the Purchaser. Such transfer to storage shall be deemed as delivery to the Purchaser for all purposes, including invoicing and payment.

> Store the product at Tayco for up to 30 days. Storage fees will be incurred five days after the order is ready for shipment. The storage rate is \$25 per day up to a maximum of \$10,000 net, for orders greater than \$10,000 net, the storage rate will be \$50 per day.

On the 31st day after manufacturing completion, the order must be shipped or the Purchaser must make arrangements for the storage of goods.

All goods are payable from the date Tayco has finished manufacturing.

ORDER DELAYS

Tayco's Order Acknowledgement will state a shipping date, which is Tayco's best estimate at the time the order is acknowledged. However, Tayco shall not incur any obligation or liability to the Purchaser for failure to ship by the specified date unless Tayco has agreed to an unequivocal, firm shipping date in a separately signed written document, executed by authorized personnel at Head Office. Tayco holds no liability for any failure to deliver or any delay in delivering or performing any obligation due to any cause outside the reasonable control of Tayco, including but not limited to, fire, flood, bad weather, war, terrorism, civil disturbance, riot, act of government, government regulation, governmental restriction on export or import, currency restriction, labor dispute, strike, plant shutdown, unavailability of materials, equipment failure or failure of supplier, carrier or subcontractor to deliver on time or otherwise perform.

BACK CHARGES

Tayco will not accept charges for expenses incurred by the Purchaser in expediting shipments, for the repair of damage caused by others or for delay of any shipment. Deductions from invoice payments are not permitted unless authorized in writing by Tayco.

FREIGHT TERMS

All goods are sold F.O.B. Tayco, Toronto, Canada, unless otherwise stipulated by Tayco.

All shipments are LTL (less than truckload) dock-to-dealer dock, Monday through Friday, 8 a.m. to 5 p.m.

The following services may be arranged for an extra charge and must be noted on the Purchase Order: delivery after hours, holidays or weekends, residential or inside delivery, delivery to government buildings or schools, use of special equipment, delivery to an end user, delivery by appointment or within specific time requirements.

Panelink | Terms and Conditions

Tayco will provide customers with an anticipated date of delivery. Every effort is made to adhere to the prescribed delivery date; however, neither Tayco nor the carrier will guarantee or be held responsible in any manner for delays or deviation from the planned delivery date.

Drivers are not responsible or permitted to assist in the off-load of product.

Tayco is not responsible for any costs incurred for late deliveries, including labor or other charges resulting from unforeseen delays.

Dealer may incur additional carrier Accessorial charges for:

- No loading dock
- Detention charges
- Street unload
- Lift gate required
- Redirect of product
- Refusal of product
- Can not accommodate certain size of trucks
- Storage

Unloading Time

LTL Shipments (Less then Truckload)

Freight companies allow 30 minutes to unload. After such time there will be an additional cost of \$75.00 for every hour or part thereof while the truck is on site. The dealer/customer will be billed for any extra time. Any charges arising from re-routing while in transit or carrier storage charges will be responsibility of the dealer/customer.

TL Shipments (Truckload)

Freight companies allow 2 hours to unload. After such time there will be an additional cost of \$75.00 for every hour or part thereof while the truck is on site. The dealer/customer will be billed for any extra time.

Tayco will gladly accept requests for delivery times and drop shipments to job sites for truckload shipments. Tayco is not responsible for any costs incurred for late deliveries, including labor or other charges resulting from unforeseen delays. Carriers typically allow for a 2-4 hour delivery window, even when a set delivery time is requested and paid for. The carrier is only liable for that additional charge and not for labor or damages.

FREIGHT CLAIMS

Tayco is not responsible for damage that occurs in transit or in storage. The carrier signs for all goods received in good order from Tayco. It is the Purchaser's responsibility to examine goods upon receipt and file any claims with Tayco.

Tayco will file freight claims for loss or damage if the following policy is followed. The following requirements must be met by the consignee in accordance with freight laws and carrier policies:

- All damages, shortages or lost freight must be reported in writing to Tayco within 72 hours of receipt. Obvious damages and shortages must be noted on the bill of lading prior to signing for the delivery (i.e. dented cartons, missing pieces, scratched surfaces). Failure by the Purchaser to make any claim against Tayco within 72 hours shall constitute acceptance of the goods and waive the right to claim any apparent defects, errors or shortages.
- A detailed list of missing or damaged pieces is required in order to assess the value of the claim. Upon receipt of this information, Tayco will contact the carrier and request an inspection or waiver thereof.
- In the case of concealed damage, Tayco must be informed in writing within 72 hours of receipt of product. All damaged product and packaging must be preserved as received pending an inspection or waiver of inspection by the carrier. All product that has a claim pending against it must be available for carriers to salvage once the claim is paid.
- Digital photos should be taken of any suspected freight damage and forwarded to Tayco.

Failure to adhere to these policies and procedures will result in claim responsibility shifting from Tayco to the consignee.

TERMINATION

If at any time Tayco is reasonably led to believe that its interests are imperiled, Tayco may, without prejudice, terminate any order immediately or may defer shipment until the situation is remedied to Tayco's satisfaction. Reasons for order termination include, but are not limited to, the following: default in payment of any sum due to Tayco, breach of any of the terms and conditions of an order or other contract with Tayco, a material change in ownership or form of the purchasing organization or if at any time the Purchaser's financial condition becomes unsatisfactory to Tayco.

RETURN MERCHANDISE

It is not Tayco's policy to accept returned product. In extenuating circumstances the return of product may be approved by Tayco. The Purchaser must request a Return Authorization Form from Tayco. All such returns must be shipped freight prepaid including duty and brokerage fees unless otherwise indicated by Tayco. Standard items are subject to a minimum restocking charge of 50% of the net value of the returned items. COD (cash on delivery) returns will not be accepted.

REPAIRS

Liability for the repair of items will be limited to repair or replacement. Tayco will not issue credit allowances for any repairs without Tayco's prior written consent.

REPLACEMENT PARTS

Replacement parts will be processed as a priority. Please consult with Customer Service for prices and include product codes and descriptions with your Purchase Order.

Limited Lifetime Warranty

Tayco products included in our standard offerings are covered by a limited lifetime warranty to the original purchaser for office use only. The warranty, which runs from the date of manufacture, covers defects in materials and workmanship under normal use and care of the products. If product is defective, and if written notices of the defect is given to Tayco within the applicable warranty period, Tayco (at its option) will either repair or replace the defective product with a comparable component or product. Tayco will cover labour charges for defective product within one year from the date of purchase. All charge backs for labour to repair or replace the defective parts MUST be submitted with the claim and pre-approved by Tayco in writing. It will be a Tayco's sole discretion to determine what it believes would be reasonable for the required work to be completed.

Limitations to the Warranty Include:

	SYSTEMS	SEATING
10 YEAR	• Structural Components • Electrical Components	
5 YEAR	• Moving Parts which include slides, locks, glides and casters • Fabrics/Upholstery • Finishes	• Bases • Arms • Casters • Pneumatic cylinders single shift for users of up to 275 lbs (40 hour week) • Seating mechanism single shift for users of up to 275 lbs (40 hour week)
3 YEAR	• Monitor Arms • Keyboard Trays and mechanisms	• Trim • Foam • Upholstery/ Mesh / seating fabrics • Arm Pads
1 YEAR	• Non-Standard Product • Tasklights	• Non-Standard Product
NOT COVERED	• Ballast and Light bulbs • Customer's Own Material	• Customer's Own Material

The following DOES NOT APPLY to Tayco's warranty (for all product line)s:

- Warranty does not apply to "normal wear and tear" such as dents, nicks, scratches, fading and improper maintenance.
- Discolouration due to exposure to sunlight or indoor lighting.
- Damage caused by improper treatment of product including exposure to unusual environmental conditions (extreme climates, acids, and moisture).
- Damage caused by carrier in transit, damage caused by transport of product from one site or location to another, misuse and alteration to the product.
- A product will not be considered defective, and Seller will not be obligated to replace it, if the product is not installed properly or is used in a "non-standard" fashion. It is at the sole discretion of Tayco to make a determination if a defect is due to improper product installation.
- The matching of colours, grains or textures
- Colour fastness or the matching of colour of textiles. Dye lots of fabric can vary
- Products used for rental purposes
- Seller (Tayco) shall not be liable under any circumstances for consequential, economic, or incidental damages of any nature, including without limitations, damages for personal injury or damages to property, and however occasioned, whether alleged as resulting from breach of warranty or contract by Tayco or negligence of Tayco or otherwise.
- This warranty is presented in lieu of all other warranties, express or implied, including, but not limited to, any implied warranties of merchantability of fitness for a particular purpose. The customers exclusive remedy with respect to any and all losses or damage resulting from any causes whatsoever shall be repair or replacement as specified above.

FABRICS

To remove dust particles, lightly vacuum the fabric surface. Spills and fluid should be immediately blotted. For minor fabric stains and marks use water-based fabric solvent, applying light pressure, to lift the dirt and stain. Any use of water and soaps may harm the fabric, causing water stains and damage to the fabric's contents. Do not scrub the fabric with bristle or vacuum brushes as the fabric may pull or tear and the appearance may be permanently affected. Professional steam cleaning is recommended.

LAMINATES

Dust laminated surfaces for regular maintenance. Clean any dirt or stain with a damp cloth. Do not use an excessive amount of water, abrasive cleaners, acids or alkalis and do not scratch or scrape surfaces. For persistent stains and marks use a commercial cleaner, such as Cabinet Magic® or Countertop Magic®, both manufactured by Magic American Corporation.

GLAZED TILES AND PANELS

Dust regularly to keep surfaces free of dust particles. Clean any dirt or stain with a damp cloth. Dry the area using a dry paper cloth. The use of fiber cloths or rags is not recommended as loose particles and debris remaining on the cloth may scratch or harm the glazed surface. Do not use other chemical cleaners or window cleaners as their chemical compositions may alter and/or permanently affect the surface appearance.

VINYL / EDGE TRIM

To remove minor scuff marks and general dirt from bases and connectors, use warm water and a soft cloth. Do not use harsh abrasive cleaners, as they may cause permanent scratches on the surface.

PAINTED METALS

Tayco's painted metal products are powder-paint-coated. To clean these products, use a damp cloth, using only a small amount of lukewarm water if necessary. Dry with a clean, dry cloth. To avoid scratching and damaging the painted surface, do not use hard bristled brushes or abrasives.

POLISHED CHROME

Maintain the luster on polished chrome products by gently cleaning with liquid soap and warm water solution. Gently dry and polish the chrome with a clean, soft cloth or rag that is free of any abrasive debris. To buff and polish further, use a commercial chrome cleanser and/or polish to enhance the shine and look. Do not use abrasive cleaners or products, as they may permanently alter the surface appearance.

THE USE OF HARSH CLEANERS AND CHEMICALS MAY PERMANENTLY ALTER THE PRODUCT FINISH APPEARANCE AND WILL VOID ANY WARRANTY.

To properly finish every panel configuration, panel fillers and connectors are required.

End Posts

End posts are required at the end of a run of panels. End posts cover the gap created by the electrical raceway and give the panel an elegant finished look. End Posts are available in stained wood and metal. End posts are also available in variable heights.

90° Fillers

90° fillers are used to fill a 90° bend in a run of panels. 90° fillers are available in partial and full lengths. Full length 90° fillers integrate with Panelink 7 electrical raceways. All 90° fillers are fabric wrapped.

“T” Fillers

“T” fillers are needed to fill a gap created during 3 panel connection. “T” fillers are available in partial and full lengths. Full length “T” fillers offer a matching base to integrate with Panelink 7 electrical raceways. All “T” fillers are fabric wrapped.

135° Fillers

135° fillers are used to fill a gap created by a 135° bend in the panel run. 135° fillers are available in partial and full lengths. Full length 135° fillers integrate with Panelink 7 electrical raceways. All 135° fillers are fabric wrapped.

Wall To Panel Connectors

Wall to panel connectors are used to connect runs of panels to walls. Tayco offers various wall to panel connectors. Please consult Tayco Customer Service to find out what method is right for your project.

 - Bronze and Fluted glazing have no upcharge

UNDERSTANDING THE PANELINK ELECTRICAL SYSTEM

A. THREE CIRCUIT SYSTEM

The 7 Wire 3 Circuit electrical system contains (3) circuits. Each circuit is rated at 15 amps/125 volts maximum. Circuit 1 and Circuit 2 are served by a system neutral and an equipment ground. Circuit 3 is shielded and isolated and is served by an isolated neutral and an isolated ground, making Circuit 3 both isolated and dedicated. Circuit 3 also includes a metallic shield against harmful electromagnetic interference (EMI). All conductors are #12 A.G.W. (gauge)

B. ISOLATED, DEDICATED & SHIELDED COMPUTER LINE

This means the computer line does not share cabling with the utility lines - it is specifically designated for computer use and the three wires of the computer line are separated from the other four by a foil shield. All of these precautions are to prevent power spikes on the other lines from affecting the computer.

C. TRIPLEX SYSTEM

As opposed to the conventional duplex system used in most wiring and panel systems, Tayco has a triplex system. Each triplex is removable and each triplex can access a designated circuit. You can have, for instance, one triplex feeding a computer, a task light and a laser printer, each on different circuits.

D. POWER HOOK-UP

The electrical starter harness has an open end with loose wires to be hooked up by the electrician. The starter harness is available in two lengths, a 72" length for floor and wall connections as well as a 168" length for ceiling power feeds.

The electrical current in the panel is only as reliable as the electrical connection. It is important that panel electrification is performed by a qualified electrician.
