

One Touch Tables.

A mobile, multi-functional training table that accommodates specific needs in a diversified range of training and learning scenarios within corporate and institutional environments.

Table

- The One-Touch Flip-Top mobile table is available in depths of 24 and 30 inches, and widths of 42, 48, 60, and 72 inches, and is standard with a 4 inch charcoal laminate modesty.
- The One-Touch Flip-Top mobile table base is silver only with charcoal accents.
- The 1-inch worksurface is available in a choice of 18 laminate colors. The edge trim color will default to match the finish of the worksurface unless otherwise specified.
- The One-Touch Flip-Top mobile table easily folds by pressing the button on either side of the table base. Once in the folded position, tables can be nested together when not in use.
- Casters on the One-Touch Flip-Top mobile table are lockable.
- When the grommet is specified, it will be centrally located along the back edge of the worksurface.
- The One-Touch Flip-Top table is shipped knocked down.

Accessories

- A metal modesty panel, tray, and variety of power and wire management options can be specified separately to increase the functionality of the One Touch Flip Top mobile table.
- The metal modesty is charcoal only. When specified, it replaces the standard laminate modesty

- The accessory tray is silver only, attached to the underside of the table, and folds to accommodate nesting.
- The ganging mechanism is black only and fits into the pre-drilled holes on the underside of the One Touch table

Power, Data, and Wire Management

- The modesty mounted wire management trough is silver only and must be specified to match the width of the modesty to which it will be attached.
- The floor feed flexible wire manager is 32-inches long, available only in grey, and has cabling capacity for two workstations with physical separation between power and data. It easily mounts to the underside of a table using the fasteners provided. The integral flexibility allows the base to be placed anywhere within a 10-inch radius. The base plate is 8-inches in diameter.
- The trough mounted power box is silver only and includes four power simplexes. It does not come with any electrical harnesses.
- The trough mounted data box is silver only and includes one RJ11 outlet, one RJ45 outlet, and a spare opening. It does not come with any data cables.
- The electrical starter has one male end while the other end is meant to plug directly into a power outlet.
- The electrical harness is equipped with two male ends. Specify the length of the electrical harness to be the same width as the table, less two inches. Refer to local codes for limits or restrictions on harness length.

One-Touch Tables.

- The modesty mounted wire management trough is fastened to the metal modesty panel.
- The trough mounted power and data boxes can be fastened to the horizontal wire management trough when power, data and communication access is required below the worksurface.
