

FREESTANDING SHIELD

tayco®

For the Ultimate DIVISION

An exercise in simplicity, the Freestanding Shield is a single element stabilized by a single foot. Geometry and material choice comprise the screen.

Designed with Toronto industrial design studio, Fig40, the Freestanding Shield is an independent structure expressed through a soft and approachable form with a generous arc on the lower side to lend a sense of lightness to a large, vertical surface. The screen is supported by a singular steel base. It is more than a divider, it is a design feature.

The Freestanding Shield, available in 20+ laminate colours, can be pulled up to any surface, panel or storage piece to create a beautifully architected divisional area, helping to keep you and your team safe.
