

PANEL SHIELD

Safety is paramount, but it should not come at the cost of function or design. The Patent Pending Panel Shield, designed in collaboration with Fig40, is an innovative solution for workplaces looking to increase their panel heights.

Quick and easy to install with the option to both reconfigure in the future and remove if needed, this unique product works with Tayco’s Cosmo and Switch slotted panel systems without the need to damage the current panel.

The Panel Shield offers substantial protection. With an impeccable fit and finish and a discreet look, it extends the height of the panels as high as 24’’* and is comprised of easy to clean materials to help reduce the risk of spreading infection in the workplace. The Panel Shield is available in clear tempered glass and laminate.
