Safety and privacy

DONE STYLISHLY.

Create new spaces and safe areas with the Gallery Shield!

With a wide variety of options, the Gallery Shield is guaranteed to compliment any space.

The Gallery Shield provides a stylistic approach to creating safe divisional areas in the workplace. Available in two uniquely designed base options, the D-Foot and Skate Foot, the Gallery Shield can be placed against a desk or wall to section off the space for safety and privacy.

A mobile version, compatible with the original Skate Foot, ensures that division spaces can be created and changed as required.

Also available with the Skate Foot is the Indent Gallery Shield.

This stunning Shield uses an inward curvature, perfect for pulling up to a table or benching station.

Stylish and purposeful, the Gallery Shield provides you with a safe and easy return to the workplace.
