

SWITCH

Modern Design,
Maximum Flexibility

A SWITCH TO BETTER

Tayco's most streamlined panel system, engineered for the evolving needs of today's agile workspaces. At just 2" thick, this sleek solution combines exquisite design, advanced functionality, and high-performance adaptability in one powerful package.

Built for modern office planning, Switch offers a fully customizable experience with panel heights up to 82", accommodating storage, organization, and a range of privacy levels. The system supports segmented acrylic or glass inserts that allow for light transmission and visual separation, creating bright, efficient, and stylish environments. With integrated power and clean cable management, Switch delivers a workspace that works as hard as you do.

What sets Switch apart is its breadth of customizable options—ensuring every workspace reflects the needs of the user. Choose from sliding or hinge doors, tailored panel dimensions, segmented glazing, and a variety of worksurface depths and leg styles to suit any layout.

Whether you're designing open-plan team zones or private offices, Switch adapts with ease. Its slim profile, paired with advanced planning capabilities and seamless integration of accessories, creates a workspace that supports productivity, collaboration, and comfort—without compromising on style.

Switch isn't just a panel system—it's a platform for performance, flexibility, and the future of work.
