

Receptions

Tayco's Reception Collection was specifically created to elevate a visitor's experience. Crafted with high-quality, durable materials, the Reception Collection provides highly customizable solutions for every user, including a wide range of sizing options, straight and L shape configurations, and ADA compliant offerings.

Wood

- All surfaces and gables are 1" thick and fabricated from thermally fused melamine with 45-lbs/cu ft density industrial grade composite wood core.
- Available in a standard selection of solid and woodgrain laminates. Custom laminates and high pressure laminates are available upon request.
- Finished with a PVC edging which match the laminate colour of choice .
- Reception units are 42" high with 30"D surface on the Customer facing side and 24"D on the return.
- Countertop depth is 10".
- Space between worksurface and transaction top is 12".
- Grain direction runs vertical.

Assembly

- All Reception units are shipped knocked down, packed on skids and shrink wrapped.
- Storage ships assembled.

Receptions

Storage

- All storage is constructed of 3/4" thermally fused melamine.
- Stationary storage has four adjustable 1½" high leveling glides that provide up to one inch of adjustability.
- All drawer slides are used to attach the drawer to the case. Each drawer has the capacity to support a load of up to 100 lbs. Drawers and slides are removable and interchangeable on-site.
- All storage comes equipped with a locking mechanism. One lock has the ability to lock two drawers. Master keys are available for the facility manager.
- All storage drawers have full extension steel ball-bearing slides and the top box drawer in a box/box/file includes a pencil tray.

Pedestals

Underdesk Pedestals

- Underdesk pedestals are offered as either box/box/file or file/file drawers.
- Offered in 16" wide and 21" deep, and can be specified for 24" and 30" deep surfaces.
- 16" wide pedestals accommodate legal or letter size documents.

Underdesk Laterals

- Underdesk laterals consists of two drawers each equipped with (2) bars for front to back filing.
- Available in widths of 30" or 36" and come in 21" deep.
- Lateral files have four 1½" high glides that allow the pedestal to adjust up to one inch in height.

Receptions

- Full-extension ball-bearing slides on the drawers allow complete and unobstructed access with front-to-back or side-to-side filing rails to maximize the use of drawer filing space and to better organize documents. Legal and letter size documents can be filed front to back or laterally within the drawer.
- Units have a built-in anti-tilt mechanism, which only allows one drawer to be opened at a time for safety purposes.

Laminate, Vinyl, and Metal Handle Finishes for Surfaces and Storage

- Surfaces and storage are available in 22 laminate finishes. Drawer handles come in a choice of eight styles and six standard colors.
- Laminates are finished with a combination of tape matching the laminate, and vinyl edge banding.
- Vinyl is available in 22 standard colors. All wood grain laminates have a matching wood grain vinyl trim.
- Drawer fronts may be specified with a different laminate than the file or cabinet casing.
- Special or COM materials are available upon request.
