UNION

A Refined Balance of
Form & Function

UNION

Union is Tayco's Private Office and conference furniture solution, combining simplicity, functionality, and sophistication. Clean lines, slim $\frac{3}{4}$ " cabinet tops, kickplate-free storage, and a 10" modesty panel create a refined, floating appearance for contemporary workspaces.

Designed for streamlined setup and smart performance, Union brings together desks, storage, credenzas integrated with Volley height-adjustable tables, community tables, floating shelves, gallery walls, planters, and flexible grommet placement. Fast assembly and minimal visible hardware create one cohesive solution for private offices, meeting spaces, reception areas, and collaborative environments.

PLANNING

Union supports a variety of workspace configurations, from private offices and executive suites to boardrooms, reception areas, cafés, and collaborative environments. Its flexible planning options allow each space to be tailored without sacrificing clean design.

Full-depth storage aligns with standard worksurfaces, while integrated credenzas, maître d' towers, combination storage, and bookcase hutches support organized and functional planning. Community tables, floating shelves, gallery walls, and planters extend the collection with coordinated options for meeting, display, hospitality, and both private and shared spaces.

Application

Private Office, Desking, Executive Suites, Boardroom, Conference, Hoteling, Reception, Hospitality, Collaborative Spaces, Filing, Storage, and Display

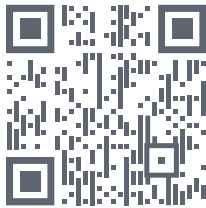

Variety

Desks, storage, credenzas integrated with Volley height-adjustable tables, community tables, floating shelves, gallery walls, maître d' towers, planters, and overhead storage configurations suit a wide range of workplace applications.

Design

Slim profiles, $\frac{3}{4}$ " cabinet tops, kickplate-free storage, and minimal visible hardware create a sophisticated and uncluttered workspace
