w/ Premium Keypad Electronic Lock	10
Locks	12

Load Bottom Drawer First

- ◆ Operate one drawer at a time
- ◆ Units may tip if loaded incorrectly
- ◆ Units should be attached to a wall or other furniture to reduce tipping hazard
- ◆ Always load the heaviest files in the bottom drawer

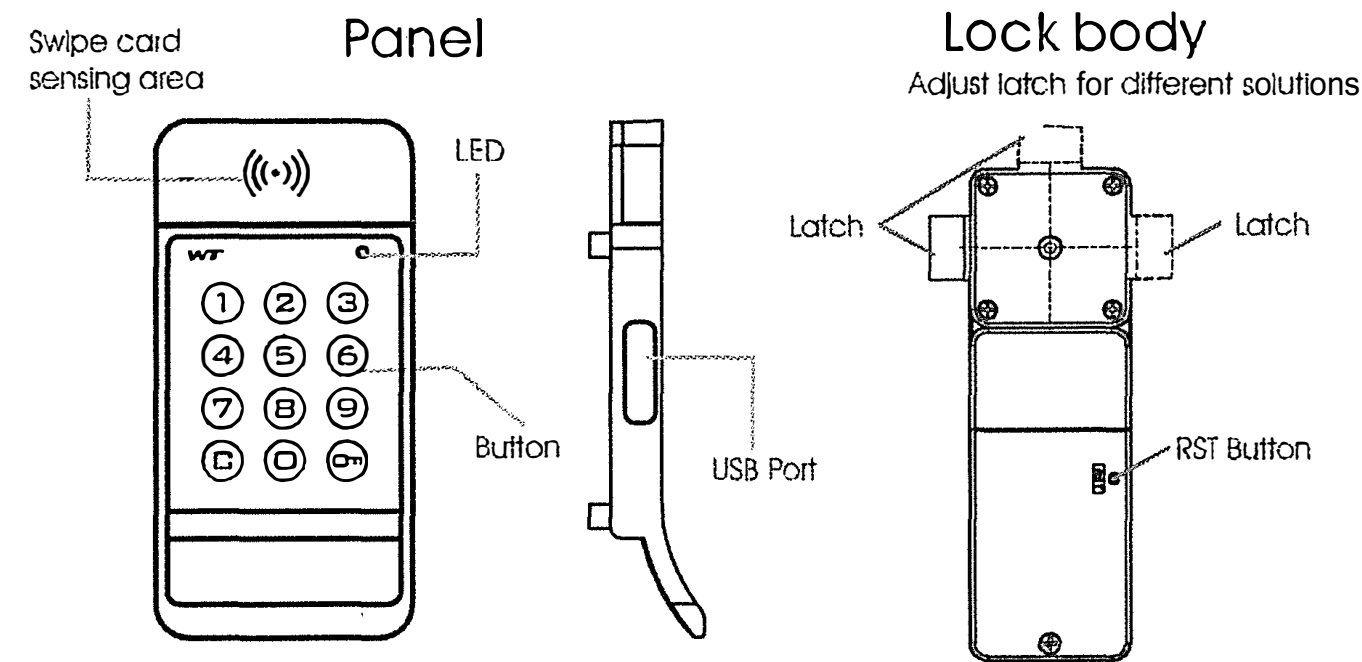

Heavy Load

- ◆ Some products must be anchored to wall to ensure stability & safety.
- ◆ It is the owner and installers responsibility to ensure that the wall type and construction is of sufficient strength to carry the loads of any wall mounted products and their contents.
- ◆ Failure of the wall and anchors to support all imposed loads may result in property damage and/or personal injury.
- ◆ Tayco can provide size and empty weight of its products only. As wall blocking is considered a building construction process, Tayco cannot provide recommendations in this respect and cannot be responsible for damage or injury that may occur as a result of improper installation and/or blocking.

Instability Hazard

Mobile items on casters such as flip top, personal and movable tables of any type and storage items of any type may present an instability hazard if not secured correctly while in use or in storage. Flip top tables or training tables of any type, are inherently more unstable when folded. Tayco provides the following guidelines & warnings when using mobile products:

- ◆ Lock casters immediately after moving. Do not leave the casters unlocked when in use or in storage.
- ◆ Motion may increase the instability of any item with casters. If the wheels hit an obstruction the table's forward momentum often causes overturn, especially if the item is not equipped with wheel extensions. Exercise strong caution while moving these items.
- ◆ Use caution when abrupt level changes in the floor are present (such as a doorway or room threshold) as caster failure or tipping may result.
- ◆ Do not stand, sit or lean on mobile items for support. They are not intended for this use and personal injury or property damage may result.
- ◆ Mobile units that feature height adjustable elements must be lowered to the minimum compressed height when moving to prevent instability. It is also recommended the user remove all computer equipment or other accessories to prevent possible weight imbalance or damage to equipment.
- ◆ Failure to follow the guidelines above may result in property damage or personal injury.

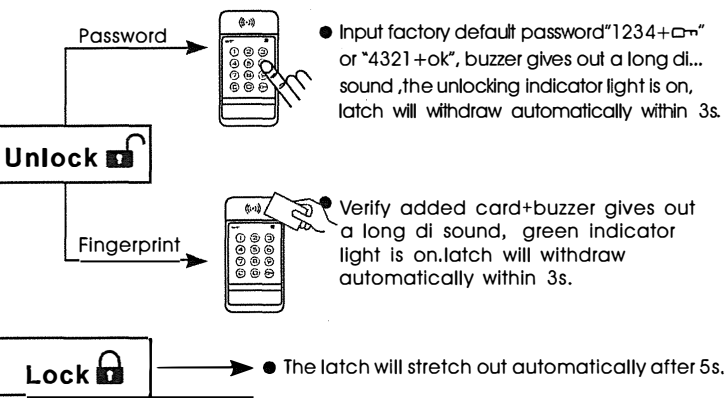

Technical parameters

Management password	4321	Management card	3
User password	1234	User card	20
Working temperature	- 20 ~+ 55° C	Dynamic current	130mA
Working humidity	10%~ 85% RH	Batteries life time	1 year
Storage temperature	- 40 ~ + 55° C	Power supply	2 x AA batteries

How to operate

- 1. Factory default user code is 1234. Factory default management code is 4321. If card database is empty, card can not be unlocked before code is added.
- 2. With private mode and public mode, factory default mode is private mode.

Lock & unlock

NOTE:

- ◆ When password/card is wrong, an alarm will sound “di..di..di..” 3 times.
- ◆ When buzzer sounds “di.di.di.” 3 times and the red indicator light is on, that means low voltage.
- ◆ When using the management password unlock successfully, user password will be changed back to original password: 1234

Setting password

Change management password

- 1. Input current management password “4321+C”, buzzer will give a long “di...” sound and the green indicator light will blink
- 2. Input new management password “*****+ ”, when you hear a long “di...” sound, that means management password has been changed

Change user password

- 1. Input current user password,”1234+C”, buzzer will give a long “di...” sound , the green indicator light will blink
- 2. Input new user password,” *****+ ”, when you hear a long “di...” sound that means user password has been changed

NOTE:

- ◆ Password can consist of 4-15 digits.
- ◆ Please note that the management password can not be the same as the user password

Setting Card

How to add management card

- 1. Input current management password, press “C”, buzzer will give out a long “di...” sound and the green indicator light will blink.
- 2. Position card close to inductive zone, buzzer will give out a long “di...” sound indicating successful card activation. This new card will be the new management card, you can continue to add other cards as management cards up to a maximum of 3.

How to add user card

- 1. Use management card 1 time, you will hear a long “di...” sound and the green indicator light will be on
- 2. Use management card again, the green indicator light will blink
- 3. Take any other card to be added, when you hear a long “di...” sound, this new card will be a user card, you can continue to add other user cards (20 at most)

NOTE:

- ◆ Management card is used for unlocking and deleting user card functions, the management card and user card can not be the same card.
- ◆ Verify management card, if green indicator light blinks you can continue adding cards, the first 3 cards will be management cards, the following 20 cards will be user cards.

How to delete single user card

- 1. Use management card 3 times, you will hear a long “di...” sound and the green indicator light will blink quickly ,

- 2. Take the user card you want to delete, when you hear a long “di...” sound indicating successful deletion, you can continue to delete other user cards.

How to delete all cards

- ◆ Use management card 5 times, you will hear 2 long “di di” sounds and the green indicator light will blink quickly indicating successful deletion.

How to switch modes

Turn on public mode, set temporary password

Turn on public mode

- 1. Input management password + , buzzer will sound a long “di...”, the green indicator light will be on.
- 2. Press  at least 2 seconds, the green indicator light will blink
- 3. Input “44”, press , when you hear a long “di ...” sound that means public mode has been set.

Set temporary password

- 1. Input the new password consisting of 4-15 digits
- 2. Press , when you hear a long “di...” sound, the green indicator light will be on indicating that the temporary password has been set.

Set temporary card

- 1. Verify any card ,
- 2. When you hear a long “di...” sound, the green indicator light will be on indicating that the temporary card has been activated.

NOTE:

- ◆ After switching to public mode, the management card needs to be added again
- ◆ In public mode, both management code and management card can delete the temporary code. Please secure the temporary code.
- ◆ Temporary password/card can be used for 1 time only.
- ◆ LED will blink every 3 seconds when locked

Turn off public mode

- 1. Input management password + , buzzer will sound a long “di...”, the green indicator light will be on.
- 2. Press  at least 2 seconds, the green indicator light will blink
- 3. Input “43”, press , when you hear a long “di ...” sound that means public mode has been turned off.

Turn on/off fake pin code function

- 1. Input management password + , buzzer will sound a long “di...”, the green indicator light will be on.
- 2. Press  at least 2 seconds, the green indicator light will blink
- 3. Input “42 +  “, when you hear a long “di ...” sound that means fake pin code function has been turned on.
- 4. Input “41 +  “, when you hear a long “di ...” sound that means fake pin code function has been turned off.

NOTE:

With Anti-Theft Technology and fake pin password function you can input any code(s) before or after the real password to prevent the real password being discovered. Maximum 16 digits.

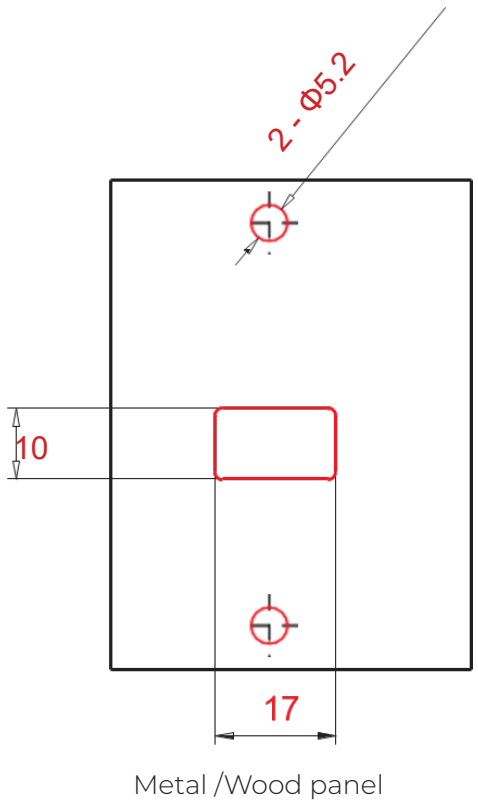

Special function description

- 1. **Decode**
When password has been forgotten, you can get the decode number by providing the code on the lock body to the distributor, the password will be changed to the original “1234” and “4321”. Or use the pin to press the reset
Hold at least 3 seconds, the password will set back to factory default.
Working mode will be kept.
- 2. **Auto-alarm** will be activated after the wrong input of password 4 times and the lock will be deactivated for 60 seconds.
- 3. **Battery low voltage prompts**
When the buzzer sounds three sounds “di di di”, and the red indicator light is on, that means battery is at low voltage, please replace the battery, the lock may not work when the voltage is low.
- 4. **Emergency power supply**
When the battery indicates low voltage, you can charge via the USB port with an external power supply.

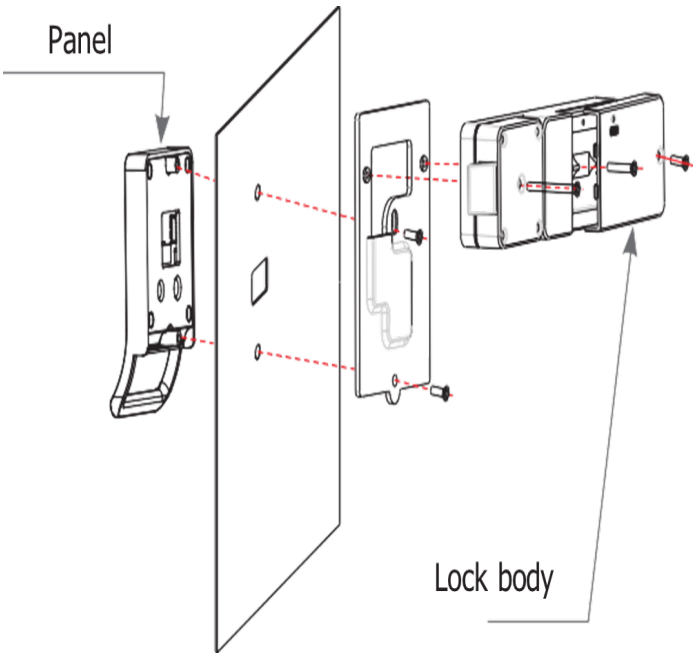

Fixing hole size & installation

Unit: mm

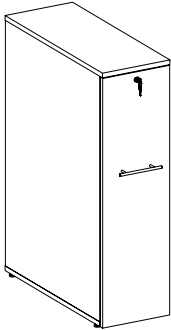

Hole size

Installation

Suitable thickness for wooden door: 16~20mm
Suitable thickness for metal door: 0.6-2mm

What’s Included:

One (1) personal tower

How to Specify:

- Each laminate comes with matching vinyl trim color unless otherwise specified on your purchase order. Refer to the laminate finish card for details.
- Refer to metal swatches for metal selections
- Choose handle type and finish
- Option shelf ledge paint finish

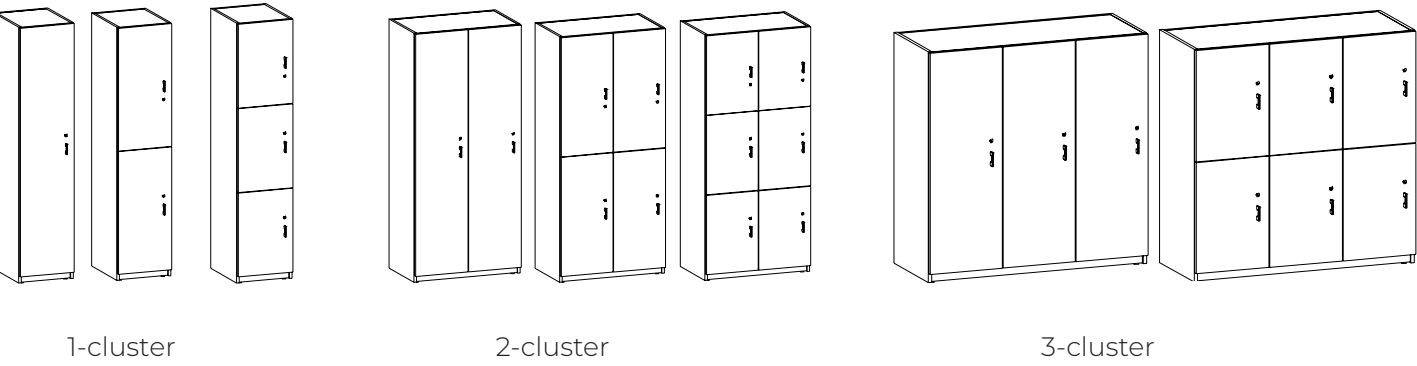

Notes:

- 42”H and 45”H come with two adjustable shelves, 50”H and 53”H come with three adjustable shelves
- Interior is always white
- Side panels can be removed to change handedness
- Coat hook is located behind the shelves
- Personal towers include lock and keys
- Storm PET pad finish at the bottom of the tower

Options:

- Laminate color
- Handle color
- Handle style
- Shelf ledge color

What’s Included:

Locker(s) with standard key lock,
Small Mckay handle, coat hook.

How to Specify:

Specify laminate for body and door.

Each laminate comes with matching vinyl trim color unless otherwise
specified on your purchase order. Refer to the laminate finish card for details.

Specify handle finish. Refer to the metal finish card for details..

Choose left hand or right hand. Right hand configuration shown above.

Notes:

Lockers have
recessed top.
Common top sold
separately.

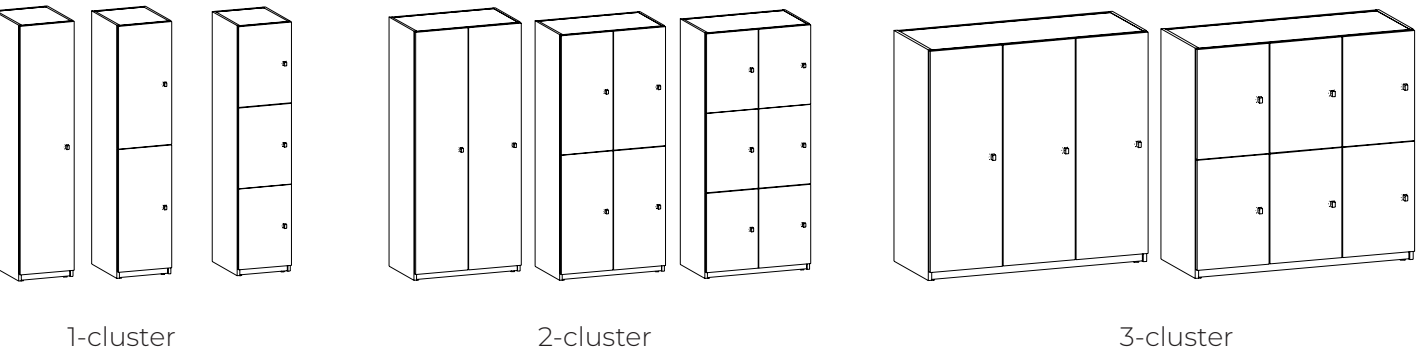

One fixed shelf on
single tier lockers
72”H only

What’s Included:

Locker(s) with premium keypad electronic lock, coat hook.

How to Specify:

Specify laminate for body and door.

Each laminate comes with matching vinyl trim color unless otherwise specified on your purchase order. Refer to the laminate finish card for details.

Choose left hand or right hand. Right hand configuration shown above.

Notes:

Lockers have recessed top. Common top sold separately.

One fixed shelf on single tier lockers 72”H only.

Password can be a maximum of 9 digits

3 AA batteries (included) can last 12-15 months

Integrated handle

Reliable battery pack available to keep you running even after power loss

Switch between public and private mode.

U-KP-PWR: Supplemental Power for Kubo Premium E-lock- \$51

U-KP-FOB: User Key FOB for Kubo Premium E-lock - \$36

Each lock comes with a Master Key FOB.

It is recommended to only keep 2 Master Key FOBs for safety and to purchase User Key Fobs for other users.
