Load Bottom Drawer First

- Operate one drawer at a time
- Units may tip if loaded incorrectly
- Units should be attached to a wall or other furniture to reduce tipping hazard
- Always load the heaviest files in the bottom drawer

Heavy Load

- Some products must be anchored to wall to ensure stability & safety.
- It is the owner and installers responsibility to ensure that the wall type and construction is of sufficient strength to carry the loads of any wall mounted products and their contents.
- Failure of the wall and anchors to support all imposed loads may result in property damage and/or personal injury.
- Tayco can provide size and empty weight of its products only. As wall blocking is considered a building construction process, Tayco cannot provide recommendations in this respect and cannot be responsible for damage or injury that may occur as a result of improper installation and/or blocking.

Instability Hazard

Mobile items on casters such as flip top, personal and movable tables of any type and storage items of any type may present an instability hazard if not secured correctly while in use or in storage. Flip top tables or training tables of any type, are inherently more unstable when folded. Tayco provides the following guidelines & warnings when using mobile products:

- Lock casters immediately after moving. Do not leave the casters unlocked when in use or in storage.
- Motion may increase the instability of any item with casters. If the wheels hit an obstruction the table's forward momentum often causes overturn, especially if the item is not equipped with wheel extensions. Exercise strong caution while moving these items.
- Use caution when abrupt level changes in the floor are present (such as a doorway or room threshold) as caster failure or tipping may result.
- Do not stand, sit or lean on mobile items for support. They are not intended for this use and personal injury or property damage may result.
- Mobile units that feature height adjustable elements must be lowered to the minimum compressed height when moving to prevent instability. It is also recommended the user remove all computer equipment or other accessories to prevent possible weight imbalance or damage to equipment.
- Failure to follow the guidelines above may result in property damage or personal injury.

What's Included:

One (1) 120 Volley table (1) with one (1) grommet, a set of height adjustable supports (1) and one digital height display unit (1).

How to Specify:

Grommet can be specified in silver or white. Edge color will default to match the surface color of the worksurface unless otherwise specified. Pinch points are taken into account in all of the Integrated tables.

Notes:

Worksurface is 1-inch thick. All worksurfaces have 2mm vinyl edge trim. Low pressure laminate is available on the top surface of a worksurface.

Table height can be adjusted to 25" from the ground and raised to a maximum height of 51" from the ground. BIFMA bases can be adjusted to 22.75" from the ground and raised to a maximum height of 48.75" from the ground.

Load capacity of 330lb with worksurface.

What's Included:

Unitized Volley tables (1) with two grommets (2)
a set of height adjustable supports (1) and one
digital height display unit (1).

How to Specify:

Grommet can be specified in silver or white.
Edge color will default to match the surface color
of the worksurface unless otherwise specified.
Pinch points are taken into account in all of the
Integrated tables.

Notes:

Straight desk worksurface is 1-inch thick.
All worksurfaces have 2mm vinyl edge trim.
Low pressure laminate is available on the top
surface of a worksurface.
Table height can be adjusted to 25.5" from the
ground and raised to a maximum height of 51"
from the ground.
Load capacity of 350lb with worksurface.

Freestanding Options:

Flex Cable Organizer

What's Included:

Flex Cable organizer

How to Specify:

This accessory is available in grey only.

Notes:

- Designed to fit the Volley height adjustable table frame.
- Attaches to frame using magnets. Can also be attached to underside of worksurface using screws.
- Height under worksurface is 5" after installation.
- Made from flexible woven seam welded plastic.
- Includes 2" opening midway on both sides for cable access

Options:

Depth 10"

What’s Included:

- Steel bridge under structure.
- 1.5” thick laminate top plinth + gable covers.
- Two metal gables with removable laminate covers for wire management.
- Under bridge cover conceals all wires.
- Sizes 108” and 240” come with a horizontal plinth with fixed laminate covers + removable metal insert.

How to Specify:

- Laminate comes with automatically matching vinyl trim unless otherwise specified.
- Metal accent color.
- Plinth laminates and gable covers can match or contrast the chosen top color.
- Metal Gables, bridge, and plinth side covers are painted in matching powder paint color.

Notes:

- Sizes between 72”-96” come as a one-piece top.
- Sizes between 108”-192” come as a two-piece top.
- Sizes between 204”-240” come as a three-piece top.
- Tables between 132”-240” come with a 36” horizontal center plinth.
- Boardroom tables with two or more tops will not have a consistent grain pattern.

Options:

What’s Included:

- Steel bridge under structure.
- 1.5” thick laminate top plinth + gable covers.
- Two metal gables with removable laminate covers for wire management.
- Under bridge cover conceals all wires.
- Sizes 108” and 240” come with a horizontal plinth with fixed laminate covers + removable metal insert.

How to Specify:

- Laminate comes with automatically matching vinyl trim unless otherwise specified.
- Metal accent color.
- Plinth laminates and gable covers can match or contrast the chosen top color.
- Metal Gables, bridge, and plinth side covers are painted in matching powder paint color.

Notes:

- Sizes between 72”-96” come as a one-piece top.
- Sizes between 108”-192” come as a two-piece top.
- Sizes between 204”-240” come as a three-piece top.
- Tables between 132”-240” come with a 36” center plinth.
- Boardroom tables with two or more tops will not have a consistent grain pattern.

Options:

V-ESMU-A	204	USB ADAPTER (1EA USB A & C PORTS WITH ADAPTER)

What's Included:

- 1.5" laminate top & gables.
- Aluminum bridge under structure.

How to Specify:

- Gables and tops are to be selected from 1.5" laminate selection.
- Inner covers may match the tops and gables or can be selected from a contrasting finish.
- All metal components have an unified finish.
- Laminates surface will automatically come with matching configured trim unless otherwise specified.

Notes:

- Sizes between 60"-96" come as a one-piece top.
- Sizes between 108"-144" come as a two-piece top.
- Tables longer than 96" come with a mid-gable.

Options:

What's Included:

- 1.5" laminate top & gables.
- Aluminum bridge under structure.

How to Specify:

- Gables and tops are to be selected from 1.5" laminate selection.
- Inner covers may match the tops and gables or can be selected from a contrasting finish.
- All metal components have an unified finish.
- Laminates surface will automatically come with matching configured trim unless otherwise specified.

Notes:

- Sizes between 60"-96" come as a one-piece top.
- Sizes between 108"-144" come as a two-piece top.
- Tables longer than 96" come with a mid-gable.
- Tops between 60"-96" come with one flush surface power unit consisting of 2 power & 2 USB.
- Tops from 108"-144" come with two power units, consisting of 2 power & 2 USB.
- When choosing optional side-mounted USB:
 - Tables without mid-legs have 4 USB power modules.
 - Up to 4 side mount USB units can be connected to one hub.
