

ENVIRONMENTAL POLICY.

Tayco is committed to protecting the environment by complying with all applicable laws, regulations, and accepted industry standards.

We recognise our responsibility to our employees, our community, and future generations, and we strive for continual improvement in our environmental and energy performance across all operations.

Tayco is committed to:

- Regulatory Compliance.
- Resource Conservation & Efficiency within our facility.
- Waste Management – sort separation of materials and reduction in material use where applicable.
- Supply Chain Collaboration – where possible partnering with suppliers with common goals.
- Engaging with Employees.
- Continuous Improvement & Pollution Prevention – seeking ways to reduce/mitigate or eliminate our environmental impact.
